Wolfgang Amadeus Mozart also stayed in the Chiemgau. The cycle path follows in his footsteps through the **Schönrammer Filz**, one of the **largest high moors in Bavaria**, to the **Waginger See**, the warmest lake in Upper Bavaria. Mozart stayed in **Waging** with his mother during a concert tour and reported that they lived like princes. From the popular holiday resort at Waginger See we drive to the Chiemsee, the "**Bavarian Sea**" with numerous lidos, cafes and boat harbors. In **Chieming**, on the eastern shore of Lake Chiemsee, you can enjoy the sunset on the promenade. From there you have the option of cycling along the lake via Breitbrunn to Amerang or taking the new variant via Seon and Obing to Amerang.

As a child, Mozart spent a lot of time in the well-known **Seon Monastery**, which is well worth seeing. He composed two offertories (parts of a mass) for the monastery. The cycle path continues to **Obing**. It is said that Mozart's father Leopold often drove there with his children from Salzburg in a carriage and spent the night in the tavern or in the post office in Frabertsham and drank the good Seoner beer with the fathers in the vicarage.
