The tour starts at the Festhalle car park, which you leave by turning right onto the main road in the direction of Sachrang. Follow the road until you turn into the district of Wald shortly after Brückl. After a short while, always following the road, you will find yourself back on the bike path next to the main road, which will take you to Sachrang. Arriving at the Geigelstein car park in Sachrang, the tour starts uphill in the direction of Geigelstein. To do this, follow the signs to the Priener Hütte. The sometimes steep, well-developed forest road leads to a cozy hut with great views, which is open all year round. Then it's the same way back down into the valley.
