Rundwanderung über Minaruh und Streunthal (vom Parkplatz am Rathaus)

HIKING TOUR

Easy circular hike via Minaruh and Streunthal

Starting point
Parking at the town hall

distance:
3.4 kilometres

maximum altitude:
621 meters

altitude difference:
102 ascending

Location
Marquartstein

duration:
01:05 hours

minimum altitude:
557 meters

altitude difference:
102 descending

The tour starts at the town hall in Marquartstein. Diagonally opposite we start on Kirchweg, where we turn left after a few meters onto the footpath towards Lanzinger Str. We cross it, then turn right onto Streunthaler Weg, and go straight ahead in the sharp bend onto the small hiking trail towards Dicking. Following the hiking sign with the destination Minaruh, we go into the forest and after a few bends we reach an open meadow. Continuing towards Minaruh, we go back into the forest and after about a kilometer we reach Minaruh. At this idyllic vantage point, a bench invites you to take a rest with a view of Hochplatte, Geigelstein and Zahmen Kaiser. On the way back we want to go back via Streunthal and therefore choose the path that leads from Minaruh first to the right, but then later to the left towards Marquartstein (note: destination Marquartstein without the addition "via Wuhrbichl"). When we reach the next sign, we do not go downhill to Marquartstein but keep left and turn right after a few meters. We walk past the hut belonging to the Streunthaler Hof, then the farm itself and then walk back towards Marquartstein and soon reach the starting point again.
