Stammham - Tittmoning - Laufen - Bad Reichenhall - Hallein or vice versa

The salt trade route opens up villages, fields and forests in the **charming foothills of the Alps** and touches on **historic Salzach towns such as Tittmoning**, which are just waiting to be discovered by you. Roads with little traffic are usually used in slightly hilly terrain with only **slight inclines** on **paved bike paths**, roads or **paved dirt roads**.

Through the Rupertiwinkel to Tittmoning

From the village of Stammham, in the Inn-Salzach holiday region, you set course for **Burghausen** with the **world's longest castle complex** and then cross the eastern part of the Chiemsee-Chiemgau cycle tour region: the **charming foothills of the Alps of the Rupertiwinkel** with its pretty villages and beautiful meadows and forests.

The Salzach town of **Tittmoning** welcomes you with the **historic market square** and the **mighty castle**. Parallel to the Salzach you drive directly to the village of **Fridolfing**. The parish church of the Assumption of the Virgin Mary in Fridolfing can be seen from afar and is considered the **largest village church in Germany** and is also called the "Bavarian Cathedral". The next town is **Kirchanschöring** with the "heavenly economy", the Saliterwirt and the "Goldweg", a tour of 20 buildings that were awarded by a competition jury.

A detour to Lake Waginger

From here you can take a detour to the **warmest lake in Upper Bavaria**. The Waginger See is a popular holiday magnet with its bathing beaches and numerous restaurants.

You are now leaving the Chiemsee-Chiemgau cycle travel region and reaching the **Salzach town of Laufen** with its **historic Salzach Bridge** . Passing **Abtsdorfer See** you continue on the trail of the "white gold" via **Bad Reichenhall** to a real magnet for visitors, the **Berchtesgaden salt mine** .

From there the tour leads past the famous **Mozart city of Salzburg** and on to **Hallein in the Salzburger Land** with the "Salzwelten" visitor mine.
