Anyone who drives from Seebruck towards Seon to the Seon monastery , through the **lively landscape of the Chiemgau through forest and meadows** , is suddenly surprised by the **seemingly bizarre sculptures** by **Prof. Heinrich Kirchner** (1902 to 1984). The **religiously inspired sculptures** , from "Moses" to the "Peace Messenger" to the "Image of Hope" are in the middle of the meadow - in the background Seon Monastery . Other works by Prof. **Heinrich Kirchner** can be seen in the districts **of Seon, Seebruck and Truchtlaching** on the sculpture trail. A well signposted path gives you the opportunity to explore the artist's work. Let yourself be surprised. In the immediate vicinity of the Seebruck Roman Museum, the works and life of the artist Heinrich Kirchner are perfectly presented.
