Starting point

Town Hall Parking

↔ *distance:*
21.4 kilometres

 *maximum altitude:*
1734 meters

 *altitude difference:*
1381 ascending

Location

Marquartstein

 *duration:*
03:30 hours

 *minimum altitude:*
538 meters

 *altitude difference:*
1381 descending

From the car park at the town hall in Marquartstein we cross the main road, walk through the pedestrian zone, then turn left over the old bridge towards Alt Marquartstein, where we then turn left at the bend onto Burgstrasse towards the Hochgern car park. At the end of the car park we turn right and carry on walking until we come to the fork to the Point, where we keep left and continue uphill. We follow the path past the Manzenberg until we come to the path along the Kaltenbach and we turn left and carry on walking up towards the Jochbergalmen. Past the Jochbergalmen we follow the path uphill, which later becomes steeper until we reach the summit chapel. After a short moment to enjoy the beautiful view in all directions, the descent begins. We follow the path towards Hochgernhaus, Enzian Hütte and Moaralm, past the Roßkopf, towards Marquartstein. At the Nock we walk past the castle towards the Freiweidach hiking car park, where we cross the road and then walk towards the Ache to cross the bridge at Skywalk, before turning left, walking along the dam, then right through the pedestrian zone, then crossing the B305 until we arrive back at the car park at the town hall.
