From the cross-country skiing center at the traffic lights along the Wasenloipe No. 1 (walk outside the trail) in the direction of Wasen. Now branch off onto the Branderloipe No. 4 (go outside the trail) in the direction of Gstatt and finally Stocking. From here leave the edge of the trail and cross country to Stockreit over a small incline and then steeply uphill to Weingarten. In addition to culinary delicacies, the mountain inn also offers an incomparable view of the Ruhpolding valley. (Those who still have energy reserves can continue their tour in the direction of the Unternberg summit.) From here, keep right across the meadow, past Stockreit and at the barn in front of the Fuchsau turn left in the direction of Schwaig and Wasen back to the starting point.
